### GEAR IS SLAUGHTERED

BLUES PLAY A HOT GAME BUT COULT NOT SAVE THE DAY.

The Star Twirler Was Easy for the Foam Blowers-Swaim Batted Out of the Box-Rettger Was Hit a Few - The Score.

HAWAUKEE WIS. May 12.-(Special.) Have you ever confble attraction of the beaten path? Actually and figuratively, it

the other side. So with the well trodden path of defeat-its devious ways and allurements, the turning of sharp corners, the weary plodder thinking that just beyond the next turn the sunlight of victory will cast its refulgent light over the defeats of the past and a new life will commence. But McFarland, c 5 the gloom gets deeper and each one of the Blues is pushing the other, and it seems impossible to turn back; they must go onto what? Ask the soothsayer, the second

his shapely head was heavy with the fumes of sulphurous epitheis. But, when asked for the cause, he remained silent, but the look that answered the interrogation! It was golden and fairty scintillated with was golden and fairly scintillated with brilliants of various hues. And to think, we had the game tied, but the Foam Blowers got on to Gear, and when they got through seven tailies had crossed the plate, and—well, it was a sizzling bunch of hits. Yet, withal, the defeat does not hang so heavy as those that have passed, for the reason that, barring that fatal eighth inning, there was nothing in the playing of the team that could be condemned. Had Gear held up his end of the string there is every likelihood that the Blues would have broken the hoodoo, but the star twirler was in the beaten path and could not reconcile himself to winning a victory.

The Blues batted like fiends, and their total was an even dozen, and in the lot were a double, a triple and a home run. Their work in the field, notwithstanding that Rony Vlox was out of the game on account of a bum mitt, was gilt edge, and Raymer was in a class all by himself—and you will notice the stolen bases were not so many. It was a regular hard luck story.

The first was a blank for both sides and as far as the Blues were concerned the same story will apply to the first four inings. The Brewers got a line on Gear!

Beston 7, Baltimore 6. brilliants of various hues. And to think,

same story will apply to the first four innings. The Brewers got a line on Gear In the second. Schoch and Swaim were credited with singles and Speer with a double which netted two runs. The third was productive of a trio. Nicol singled, Weaver offered up a sacrifice, Rothfuss made an error and then Stafford had the bad taste to make a home run. The fourth was a goose egg and the score was 5 to 6 in favor of the Foam Blowers.

The silence was melodramatic as Mc-Vicker approached the plate in the fifth. He caught one of Swaim's twisters and he didn't do a thing—just three bags. Raysame story will apply to the first four in-

He caught one of Swaim's twisters and he siddn't do a thing-just three bags. Raymer singled out another and with a swat on the nose he ambied to second. Wilson went out and then Gear sent a daisy cutter for a single and Miller did the same deed. It was up to Turner and in about four seconds it was down to the fence. Tuck completed the circuit. The score was tied, but the Foam Blowers had the nerve to get a run in their half of the inning and the tie was a tie no longer.

When the Blues came to the bat in the sixth, Swaim had disappeared and Rettger was on the rubber. We got a run. Mc-Vicker's hit, Raymer's sacrifice and errors by Shoch and Gray allowed Mack to cross the plate, and the score was tied once more, and remained so for an inning and a half, and then came the fatal eighth. The Foam Blowers lit on Gear, and they soaked him to all points of the compass.

a half, and then came the fatal eighth. The Foam Blowers lit on Gear, and they soaked him to all points of the compass. It was a succession of singles and doubles, Great Scott! It looked as if they would never stop, but finally, after seven runs had been scored, they quit. It was awful. Slaughterfd will aptly describe the result, but the cause—it would stump the makers of the Century dictionary to find words to convey the news without being vulgar. But we got another in the ninth, and the Foam Blowers only beat us by six runs.

The detailed score is eloquent in its expression of sharp plays and hard hitting—but Gear's twirling, rotten. The score:

every stage of the game. He was handicapped, however, in that he had an unhealed cut over his left eye and came into the ring with a big bandage around his head.

In action the bandage slipped down and until he ripped it off he was at times playing blindman's buff. Later in the contest the cut was reopened and bled so freely that his left eye was at times blinded. He also seemed to show the effect of too much. In action the bandage slipped down and until he ripped it off he was at times playing blindman's buff. Later in the contest the cut was reopened and bled so freely that his left eye was at times blinded. He also seemed to show the effect of too much fighting of late, for he lacked the dash and yim that have brought him many victories. Flaherty had the advantage of height, weight and reach, and made the pace in most of the rounds, but his work was ineffective. He constantly overreached and looked wild alongside of the little man who was generally inside his punches or under them. He displayed a very dangerous left hand, but lacked judgment of distance to make it useful.

Field Day at Lexington.

LEXINGTON, Mo., May 12.—(Special.)
Field day, Monday, May 22, this year at
Wentworth Military academy gives promise of being the most notable in the history
of the school.

More cadets have entered for the various
contests than ever known before, and the
competition for the various prizes will be Leg Sores—"Sores on my wife's limb | Bad Blood—"Although past 70 years been offered by Kansas City and home

McCoy After Ryan. After taking Hood's Sarsaparilla she laid them aside and walked freely." Fred A. Hoyle, Reynolds Bridge, Conn.

Grip—"Was in very bad condition after an attack of grip. Nothing helped me, and I almost gave up hope. I am strong and left feel better now than in twenty same so I hood's Sarsaparilla that made me so after spending over \$60 in medical attendance. My trouble was a raw sore on my ankle." Mrs. Louisa Mason, Court of the Colorado Athletic Association, has forwarded to Tommy Ryan a formal challenge to fight in Denver for the world. Every effort will be made to have the contest take place in Denver the same week with the Fitzsim-mons-Jeffries fight.

Matthews-Zeigler Draw.

Puffs From the Pipe.

There are worse pitchers than Gear, but they were not playing ball yesterday. The Stars, of the Cathedral academy, heat the Stripes, of the same school, by a score of 12 to 5. Rothfuss played a great game at sec-ond, barring the error which he gained by muffing a fly ball.

The Railroad baseball team and Swofford Bros. will have a game this afternoon on the old league grounds. It will be a lulu. The Zinn's Caskas will do a little pre-liminary practice at the old league park to-morrow morning. All players are re-quested to report.

quested to report.

A "Home of Rest" for tired workers has been established across the water. It would have been a good place for Gear after the eighth inning.

Kindly note the hit and fielding columns. The boys were crackerjacks in the field and at the bat, but Gear—well, it was a great pounding he received.

The game between the Blues and Foam Blowers yesterday was scheduled for Au-gust 15. After it was over Manager Man-ning wished it had not been played.

Charge of Fast Driving.

Unless T. W. Knauber, police judge of Rosedale, forfeits a \$5 bond, he will be a penittent before Police Judge Wood, of Kansas City, Kas., this morning on the charge of fast driving over the Kansas avanue bridge. Judge Knauber was arrested yesterday afternoon by Mounted Patrolman Wakeman, after a lively chase. When taken to No. 8 police station he gave bond and was released without divulging his identity. A friend of the Judge, however, met him as he was leaving the station and his identity was made known.

Judge Knauber is a salesman for a Kansas City cigar firm, and yesterday he visited Armourdale. It is claimed that he drove over the Kansas avenue bridge at a lively gait. As Knauber drove off the bridge Patrolman Wakeman was waiting for him on his black charger and motioned for him to step. But he paid no heed.

iround champlonship. The William Jewell team entered the contests in good faith, expecting the Journal to be absolute authority in all matters where other authority was not expressly provided for.

The injustice to William Jewell of referring back of the On-lai Journal to count Woodson first in the contest is apparent.

The matter is under protest and has been referred to the games committee. The committee is composed of: Professors H, Ayers, Columbia, A. B. Chamler, Moberly; J. H. Jordan, St. Joseph J. I. Cammack, Kansass City, J. D. Wilson, Sedalin; W. G. Manly, Columbia, secretary; Y. P. Rothwell, Columbia, chairman.

Inviting new spring styles in the Furnishing Goods Department. Only the most reliable of qualities and moderate prices. The H. L. P. Hat fulfils its mission well-\$2.50 up.

JOHN B. REICHLE, Resident Partner and Manager.

TELEPHONE COMPANY MAY CON-

only a Question of Time When Telegraph and Electric Light Wires Will Also Be Underground in Kansas City.

The board of public works vesterday gave its consent to the establishment of a con duit line by the Missouri and Kansas Telephone Company that will enable that com pany to put all its wires in the West bottoms under ground, south of Twelftl street.

The conduits will be put in on Sixth street, Bank to Bluff; Eighth, Mill to Mulberry; Mulberry, Eighth to Twelfth, and Ninth, Mulberry to the state line. The company's conduits already extend to Sixth and Bank streets. Branch conduits in the alleys will carry the wires into the buildings.

The work will begin June 1, when 10 men will be employed, and will be pushas fast as possible. The cost of the work A. G. SPALDING & BROS. is estimated at \$70,000. These conduits will add 4.750 feet to the company's system and \$475 a year to the city's revenue, as the company pays the city 10 cents a linear foot per year for each foot of conduit it maintains. This is believed to be the first step to

ward the eventual burying of all telegraph, telephone and electric light wires in the central sections of the city, plans for which have been frequently discussed by the man-agement of various companies interested Chief Hale has on numerous occasion through the press, called attention to the danger to life and property involved in the network of wires which always impedes the work of the firemen. The danger to life has been emphasized by numerous fatal-

has been emphasized by numerous fatalities, and the tragic death of Fireman McNellis is the latest example.

General Manager Alonzo Burt, of the Missouri and Kansas Telephone Company, said yesterday:

"The new improvements that we will soon make will simply be an extension of the underground work that was done two years ago. We have a great many wires under ground at present, but think that matters have reached such a stage that it will be advisable to bury as many as possible.

under ground at present, but think that matters have reached such a stage that it will be advisable to bury as many as possible.

"Under the existing condition there is considerable loss of service from the crossing of telephone and electric light wires. For instance we lost connection with about ifteen subscribers during the Deardorff fire in the West bottoms. There is a constant menace to life as long as the wires are overhead."

General Manager E. R. Weeks, of the Kansas City Electrict Light Company, said yesterday that his company had not yet decided definitely to place the wires underground in the district bounded by the river, Holmes and Fourteenth streets and the state line.

"We have made all the surveys for the proposed work," said Mr. Weeks, "but have not decided whether the work will be begun in the near future or not. We have hesitated somewhat on account of the enormous cost, for we have estimated that the expenses of burying the wires cannot be less than \$250,000.

"The public demands that we shall bury our wires and we will make every effort to carry out the wishes of the people. The wires are unsightly and the firemen are in constant danger and for these reasons, if for no others, I think that the wires should be placed underground."

Mr. M. D. Wood, manager of the Western Union Telegraph Company in this city, said that he heartily favored putting the wires underground.

"But," said Mr. Wood, "the Western Union will not pay rental for the ground. We have our wires underground in a number of the large cities, but in no case have we paid for the privilege.

"For some time we have had an ordinance before the city council proposing to place our wires underground here provided we were not made to pay for the privilege. Nothing has been done with it, however, and until that privilege is granted we will do nothing."

City Hall Notes. Dr. Unthank, the colored physician who was taken with smallpox while attending a patient, was discharged from the pesthouse ye. erday. An ordinance appropriating \$2,000 to make repairs at the Holly street reservoir was approved by the board of public works yesterday. The leak in the riprapping is to be stopped and a brick coping built around the basin.

The National Association of Charities meets at Cincinnati May 17 and yesterday Mayor Jones appointed the following delegates to attend from Kansas City: H. S. Boice, C. D. Parker, G. F. Damon and S. A. Pierce.

A. Pierce.

The paving of Sixth street, from Holmes to Grove, which will be done as soon as the council confirms the contract, which has been let, was delayed again yesterday by the board of public works at the request of the park board.

A joint meeting of the water committees and the board of public works will be held in a few days to consider the plan of D. W. Longweil, superintendent of the water works, for the construction of a thirty inch water main from Turkey creek to Twelfth and Bell streets. The estimated cost is \$25,000.

The lower house public improvements

The lower house public improvements committee met yesterday afternoon to consider a big petition remonstrating against giving the Kansas City, Fort Scott & Memphis roud permission to lay switch tracks on Eighth street near Hickory. The committee decided to return an unfavorable report against the ordinance.
